Ken Cooley, Chairman,  
Sacramento Transportation Authority  
431 I Street, Suite 106,  
Sacramento, California 95814

CC: Members of the STA Governing Board

Dear Chairman Cooley,

*WALKS*Sacramento wishes to express our strong support of the proposed resolution:  
*Intent to Pursue A Supplemental Local Transportation Funding Program, No# STA 07-\_\_.*

*WALKS*Sacramento is a community organization dedicated to our enhancing quality of life through safe, walkable communities. *WALKS*Sacramento supports strong public transit as a vital component of healthy transportation choices, which also promotes cleaner air and reduces congestion by reducing trips by automobile.

The Downtown-Natomas-Airport (DNA) light rail line is the highest polled project in the region. It supports the SACOG Blueprint vision by connecting key destinations and the developing Natomas community. Your support for seeking additional funding will also allow for continued road maintenance and expanded transit service, which are needed to meet our growing region's future transportation needs.

Please support the proposed resolution. Feel free to contact me if you have any questions. Thank you for your time and attention.

Sincerely,

Anne Geraghty, Executive Director  
WALKS*S*acramento
