

SUNRISE BOULEVARD WALK/BIKE IMPROVEMENT STUDY

WALKSacramento is reaching out to residents, employees and property owners in Rancho Cordova to hear your thoughts about walking and biking along Sunrise and Folsom Boulevard between the Folsom South Canal and the Citrus Road Trail.

Through your input, this project will provide the City with compelling evidence to support further efforts to plan and implement solutions along this corridor.

We want to know what challenges you experience on foot or by bike and what you want to see improved to make walking and biking safer, easier, and more comfortable.

Come learn more about the project, share your thoughts and ideas, and learn about the upcoming Walk Audit and other public events following the kickoff meeting.

6:00-7:00 PM
Thursday, April 6
Rancho Cordova City Hall
2729 Prospect Park Drive
