WHAT IS A “WALK AUDIT”?

This “walk audit” will be a walking meeting that examines the streetscape on a predetermined route in the project area for its effect on safety, comfort and convenience of travel by foot and bike. We’ll be looking at street elements such as sidewalks, bike lanes, crosswalks, trees, lighting, traffic volumes and speeds, noise, and cleanliness.

Join WALKSacramento and Rancho Cordova residents and business owners for a walk audit on **Wednesday, May 10 from 5:30 pm to 7:30 pm.**

WALKSacramento wants to get your ideas and discuss walking and biking in the area from Citrus Road, just south of US 50, to the Folsom South Canal Trail crossing of Sunrise Boulevard.

The Sunrise Boulevard Walk/Bike Improvement Study is engaging Rancho Cordova stakeholders and community residents to improve bicycle and pedestrian connectivity between the Sunrise Corridor Bikeway and the Folsom South Canal trail along portions of Folsom and Sunrise Boulevards.

WALKSacramento will report your ideas to the City to help support applications for future funding of walking and biking transportation improvements. Community support is critical to making a strong case for funding, and your participation **is needed.**
