City of Sacramento Community Development Department  
300 Richards Boulevard, 3rd Floor  
Sacramento, California 95811

**RE: Greenbriar Phase 2 (P18-050)**

Dear Mr. Norman:

We are pleased to hear that in response to our recommendations made in our February 26, 2019 letter the applicant has agreed to incorporate 8'-wide sidewalks on the street sections south of Meister Way identified as *Modified Major Collector - Streets 1 & 34 Expanded Intersection @ Meister Road Entry* on page 1 of the Tentative Subdivision Map. While it is better to separate pedestrians and bicyclists in most situations, we also want to maximize the safety of both modes.

We also appreciate the effort and responsiveness shown by Wood Rodgers, the City of Sacramento Department of Public Works and the applicant to address our concerns.

WALKSacramento is working to support increased physical activity such as walking and bicycling in local neighborhoods as well as helping to create community environments that support walking and bicycling. The benefits include improved physical fitness, less motor vehicle traffic congestion, better air quality, and a stronger sense of cohesion and safety in local neighborhoods.

Sincerely,

Chris Holm  
Project Manager
