Planning for a Healthy Sacramento Region

Planning Directors and Public Health Officers Convening

Working Together to Improve Our Communities

Thank you for agreeing to participate in this first Regional Convening of Planning Directors and Public Health Officers. This convening will provide an opportunity to build relationships, identify shared objectives and opportunities for collaboration, meet state mandates, and discuss how to move forward towards implementing activities that support health, sustainability and economic development in your community.

A Common Goal of Healthier Communities

Planning and public health have common roots and shared values. Both understand the impact that the built environment has on the social, physical and economic health of our communities. A partnership between planning and public health professionals will help ensure that policies that support healthy and sustainable communities are implemented, creating healthier places and a healthier future.

Plan4Health

This convening is made possible by Plan4Health, a collaboration between the American Planning Association (APA) and the American Public Health Association (APHA) through the Centers for Disease Control. By leveraging the collective strengths and expertise of planners and public health professionals, Plan4Health is working to develop creative and collaborative solutions to improve the health of communities throughout the United States. WALKSacramento is the lead organization of the Sacramento Region Cohort.
